GOBIERNO DE PUERTO RICO

Financial Oversight & Management Board for Puerto Rico

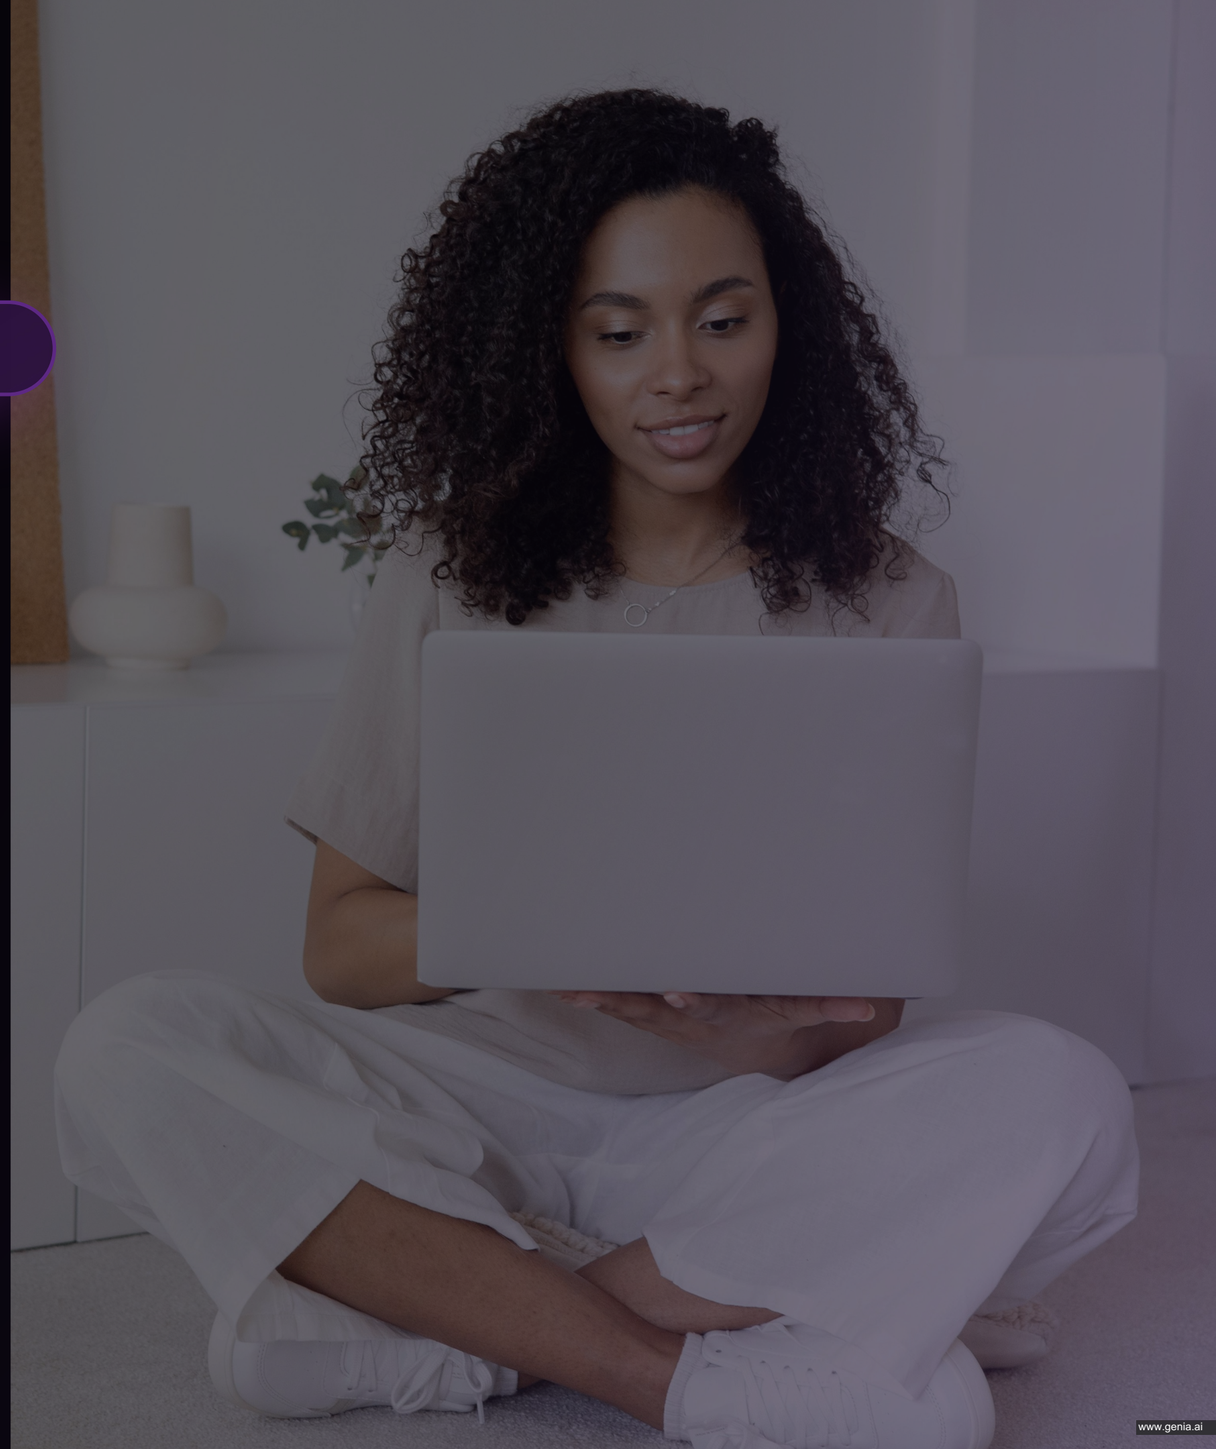
DEPARTMENT OF STATE
UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE
UNITED STATES OF AMERICA

LATAM 4.0

Financial Epicenter Data Strategy Foundation

- Simplify data architecture & align with business objectives
- Establish a centralized data platform for improved management & analytics
- Implement data governance & quality processes
- Focus on data monetization & data-driven decision making



AI STRATEGY INTEGRATION

Streamlining complex processes, enhancing data analysis & driving accurate, faster decision-making

➔ To leverage Puerto Rico's potential as a center of economic activity in an era of technological revolution

Regional AI R&D Labs

Collaborative approach to AI research and application across security, energy, education, health, and climate, with tailored solutions for Latin America. By building a network of experts and global partners, we'll drive growth, enhance competitiveness, and address key social issues through responsible innovation.

Collaboration

Alliances between government, industry, academia & civil society

AI Development

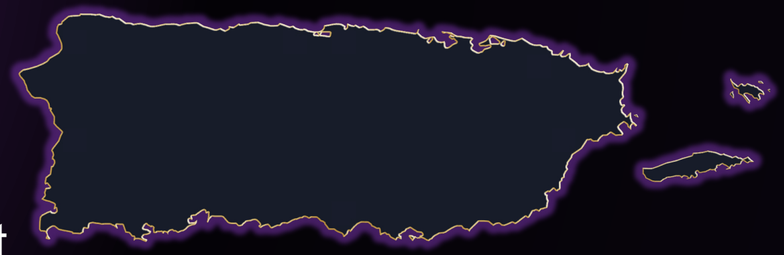
Applications for financial services & economic growth

Implementation

Transforming P.R., U.S. & LAC through AI: Innovation, Collaboration, and Impact.

HOW?

Data-Driven AI Strategy
Future-proof solutions for smarter financial oversight & decision-making



→ **To transform Puerto Rico by driving economic growth, fostering innovation, and attracting investment. Being at the forefront is seizing the future.**

Governance & Quality

Establish policies to ensure reliable, consistent data as the foundation for AI-driven decision-making. Without solid data governance, AI systems risk producing inaccurate or biased results. Securing the future of intelligent solutions by ensuring the integrity and accountability of the data that fuels them is essential. Failure to address data quality issues now may significantly hinder the full potential of AI-driven solutions.

Integration & Security

Unify data access while protecting sensitive information

Infrastructure & Scalability

Modernize systems to handle growing data needs

Literacy & Culture

Foster data skills and a data-driven mindset

FOMB's Role: Ensure fiscal responsibility, budget oversight, and sustainability.

Government & Public Sector

Social Services & Workforce Development

Financial Institutions & Investment

Infrastructure & Sustainability

Implementation

- Attract new businesses & investments
- Support existing companies & foster entrepreneurship
- Develop workforce for future industries
- Improve quality of life for residents by empowering sustainability
